## 2ND LYKEO OF KALAMATA

## *SPAIN*

On 13–19 of January 2019 2nd lykeo of Kalamata visited Spain, Valencia and they stayed in a village called L'eliana near the center of the city. Our Erasmus+ project with the title "Entrepreneurship and language matters in life" allowed us to travel and learn about the culture ,

## STUDENT'S THOUGHTS ON THE TRIP

Stasinou Ntaveas : The trip to L' Eliana was spectacular. From my point of view, we had a great time there. The students were friendly, the food was pretty tasty. Although local people didn't know how to speak the language fluently, we could communicate through body language. The monuments were unique and food was tasty (in majority). The family hosting me were kind. Unfortunately, we didn't have the chance to visit Oceanografic, but it's okay. Their school was much better and bigger than ours, the houses were also big enough.

Andreas Acristinei : The trip to L' Eliana was amazing. I liked almost everything. In my opinion, we had an excellent experience. First of all, the students were really friendly and we got on pretty well although they didn't speak good English. The school was much bigger than ours and sometimes we would getlost. Every food recipe I tasted was amazing. I really enjoyed the Spanish food! The family that hosted me was incredible and I have nothing to complain about them. My only regret is that unfortunately we

didn't manage to visit the Oceanografic and I am a bit upset about that. All in all, the trip to Spain was just incredible and I would for sure visit Valencia again.

Thodoris Georgopoulos : The trip to L' Eliana was awesome. Everything we did or saw was so interesting that I will never forget it. Firstly, what i liked most, was the Spanish students who were really friendly and hospitable with us. Their school was much bigger than ours and we needed plenty of time to see it all. Also, the food there was great too and none of us had any problem in eating it. Last but not least, the family that hosted me was amazing and made me feel so comfordable that i was feeling like I was in my home. In conclusion, this was the best trip I've ever had in my life and I really want to do it again in the future.
